# What past donors are saying:

The Invest in Kids Program is a win-win for those receiving & giving. Families who otherwise would not be able to afford tuition at private institutions now can explore options outside of public education, and donors reap the benefits of knowing their investment is going towards enhancing a child's future. As a member of the Islamic Foundation community for almost two decades with a child in their last year of elementary at IFS, I consider it a duty and privilege to contribute to Invest in Kids. Insha'Allah, the investments from our community can help other families afford a well-rounded education in an Islamic environment for their children. -**C. Payne**

For the last 2 years, we have been contributing to the "Invest in Kids" scholarship program and have designated IFS as the sole beneficiary. This is a terrific scholarship program that enables IFS to offer tuition assistance to deserving families wanting a great education in an Islamic environment for their children. We have really enjoyed the nice State of IL tax credits that we have been receiving while participating in this program. The online donation process is very simple and the IFS board has been really helpful in facilitating this donation process. -**Mustafa & Sidra Yar-Khan**

Invest in Kids is an amazing program that everyone in the community should be taking advantage of. It's very gratifying to know that my tax dollars are being used in ways that are close to my heart. When I first heard of this program, I wondered what the catch was. Because it seems like a no-brainer that we should all be doing this. -**Tajammul & Rabia Hussain**
